

# Presentation of Stenus Gymnasium & HF, Holbæk, Denmark, Europe

Stenus Gymnasium & HF contributes to meeting society's needs for young people to develop from students into becoming undergraduates and becoming competent, democratic citizens in the Danish society and in a globalized world.

Note : The word "gymnasium" is the word used in the Scandinavian countries, corresponding to the American "High School", i.e. 10<sup>th</sup> to 12<sup>th</sup> grades., resulting in an exam which, among other things, qualifies for university studies.

Stenhus Gymnasium & HF is more than 100 years old and is one of Denmark's biggest "gymnasiums" with about 1100 students and 130 university trained teachers. The physical conditions of the school are absolutely superb as the school has only recently been renovated and extended with new buildings in a modern and bright architecture which has created open space for all sorts of study activities.

When our students have finished their schooling at Stenhus Gymnasium & HF they are in possession of :

- general education, knowledge and study competence within the humanities, natural science and social science with a view to a more advanced educational capacity for reasoning, analysis, generalization and abstraction
- innovative and creative faculties

- personal competence and ability to reflect on the surrounding world and to reflect on one's own development
- qualifications for active participation in a democratic society
- ability to get on in an internationally oriented world

At Stenhus Gymnasium & HF we emphasize tolerance, mutual respect and a proper tone among ourselves.

Our students participate in decision making and are coresponsible for the teaching. Accordingly, we expect them to make use of this, to take responsibility for their own education, work actively and show respect for each other.

Stenhus Gymnasium & HF is more than just going to classes. The two or three years at school also include after school activities in a creative and innovative youth setting where new things may happen.

As a student you can meet in a community of interests with other students – it is, for example, possible to stage a musical, play in a bigband, arrange music cafés, spend time in art workshops, play theatre, play soccer, basketball, volleyball, and participate in various tournaments.
